

# Clyde & Doris Jones of Texas 1998

Clyde loved showing and helping at the shows. You would always find him at the judging tables. He loved this breed and enjoyed watching them being judged. Even though he has to sell his head when he had to move to a nursing home, his Holland friends would always try to take him to ARBA conventions. It was the highlight of his year. When you showed him a favorite Holland you would see his eyes light up just by putting his hands on a Holland. Even though his sight was a little off when he was older, his hands never lied.

Doris also loved the Hollands. At many conventions and nationals, she was always at Clyde's side. She served on the HLRSC Election Committee and always helped wherever she could at conventions.
